Terms, Discounts, Etc.

WE are commission jobbers in all florists' stock and requisites. Growers and producers having Cut Flowers, Plants, Bulbs, Seeds, etc., will kindly communicate with us on same, and we will endeavor to find a market for your stock. We sell on a small commission. Cut flower shippers should endeavor to make regular shipments daily, or on certain days of week, as amount of stock justifies. This gives us a better idea what to depend upon in taking orders ahead for certain growers' stock. Report of sales made weekly.

Our terms to customers of approved credit are: 30 days on all supplies, 3 per cent cash, 10 days; 30 days on Wire Designs, cash, 10 days, on orders \$10.00 to \$20.00, 10 per cent; orders \$20.00 to \$50.00, 25 per cent; special discounts on large orders; 30 days on all seeds; 10 per cent cash, 10 days. Cut flower and plant bills all net and strictly cash excepting customers having open accounts with us

New customers will please send cash with order or satisfactory references to avoid delay in filling order, otherwise goods will be sent C. O. D.

We aim to take care of C. O. D. customers the same as cash customers purchasing over our counters, and

parties buying in this manner will receive best possible stock and at rock bottom prices. Our friends and patrons desiring to make purchase of any kind in Chicago, whether pertaining to our trade or not, can do so through us, and we will act as purchasing agent for such goods, giving customers advantage of lowest wholesale prices, as we are right in the midst of the leading wholesale houses of Chicago in all branches of trade. We can save our country customers considerable money in this way.

While this list is by no means a complete one, we trust it will lead to us getting at least a share of your patronage, as it covers most of the staple articles used in the florists' trade. We will make every effort to please you.

Yours respectfully,

W. Kellard Winterson

SPIRAEA ASTILBOIDES FLORIBUNDA,

The Best for Easter Sales.

NAMED DUTCH ROMAN OR MINIATURE HYACINTHS.

These cannot be excelled for growing either as cut-flowers or pot plants, owing to cheapness of bulbs and earliness of flowering. The named varieties are particularly good for growing three or six in a pot, as they produce strong spikes, almost equal to those of the second size named; flowers are stronger and larger than blooms of French Romans.

Prices quoted are for first size bulbs and NOT for SECOND SIZE as generally supplied.

SINGLE NAMED HYACINTHS, FIRST SIZE.

Named Dutch Roman Hyacinths are now largely grown for pot plants.

NAMED HYACINTHS.

Second Size.

These are usually sold under the name of Selected first size, and in comparing prices please bear this in mind. While it is true that some will not produce as large and full spikes as our first size they will nevertheless give good satisfaction. Particularly commendable for bedding where solid colors are desired. For description as to color, etc., see under first size named.

We can also supply in limited quantities any of the varieties mentioned under head of first size and not mentioned above. We recommend, however, for second size bulbs only those varieties listed under that head.

If you have a retail trade grow a quantity of DUTCH ROMAN HYACINTHS (named varieties). Six bulbs in a 7-inch earthen pan. They will make you money.

MIXED HYACINTHS.**For Forcing and Bedding.**

Our stock is of the highest quality, fully matured and will give as good flowers as a great many of the named from other dealers. Please note we offer two mixtures.

TULIPS.**SINGLE TULIPS.****NOVELTY, OR MAMMOTH LA REINE TULIPS.**

Flowers of these "Novelty" Tulips brought the past season the highest price of all varieties sent in to the Chicago market, and they have been shipped in large quantities as far as New York City. They are produced from mammoth bulbs of the variety "La Reine," and by growing them in a cool and shaded situation after they come into bud.

Best forcing varieties for cut flowers here have proved to be La Reine, Keizerskroon, Yellow Prince and Murillo. These varieties can be safely recommended. We handle strictly first size Tulip Bulbs. Not less than 260 of a variety at 1000 rate, nor less than 25 at 100 rate. We recommend the following as being some of the most profitable varieties to grow for cut-flowers; we import large quantities of these, securing the choicest bulbs obtainable in Holland. *Note low prices.*

JAPAN GROWN LILUM LONGIFLORUM.

Orders placed now will be most certain of delivery and secure inside prices.

Japan Lilum Longiflorum have proved a most desirable substitute for Lilum Harrisii for late Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, florists should experience no trouble to bring them into flower in good time since Easter does not occur in 1900 until 15 days later than in 1899. Owing to the increasing demand for this Lily the supply will likely be exhausted before planting time and it is doubtful if late orders will be filled in full. Prices subject to change. We supply 250 at thousand rate.

LILY OF THE VALLEY.

Our strains of Lily of the Valley are the best the market produces, and stock sent out by us last year gave the best of satisfaction. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results—so much, however, depends on the treatment of this stock in forcing and storage that we will not assume any responsibility for the crop.

SPHAGNUM MOSS

PUT UP IN NEW FORM

We Are Strictly Headquarters on Sphagnum.

DRY WEIGHT 30 TO 40 LBS

A GREAT improvement in baleing Sphagnum Moss has been achieved in baleing it more compressed than in the old method of the burlap bales. These bales contain the same amount of moss as burlap bales but are only about one third the size, though making it much more conveniently in handling and storeing. This is strictly high grade moss, clean and free from sticks.

DIRECTIONS FOR USE:—Do not undertake to pull the Moss apart when dry. When opening the Moss for use, cut the wires and pour water on one of the sides of the bale covered by slats and you will find the fiber is uninjured, and that the Moss will shake out loose and fresh as when gathered from the marsh. The compactness of the bale excludes the air and makes the keeping qualities, as well as its convenience, far superior to the old methods of baling Moss.

Jas. Vick's Sons, Florists and Seedsmen, Rochester, N. Y., write us: "We followed your directions in cutting wires and wetting down the Moss, and it is the finest sample we have ever used, perfectly free from roots and other matter."

GRAFTED ROSES ON MANETTI.

FORCING VARIETIES.

Ready after March 1st. \$10.00 per 100.

Bride, Perle, Bridesmaid, Kaisserine Augusta Victoria, American Beauty, Meteor.

The demand for very high grade cut flowers has led to a consequent demand for that stock which will give the largest blooms on the finest stems, and it is the general consensus of opinion that Teas on Manetti are far superior in this respect. One of the most noted growers in this country says that "good grafted stock brings from 60 to 65 per cent of highest grade blooms where own root stock will give only 30 to 35 per cent of the same."

Write us on anything you may need whether we list it or not.

Palms and Miscellaneous Plants.

A great deal of attention will be devoted to this branch of our business, and florists desiring to buy or sell will please correspond with us before doing so. We will handle large quantities of ornamental and blooming plants for all holidays. Azaleas, Lilies, Hyacinths, Tulips, Roses, Narcissus, Spiraea, Deutzia, Dielytra, Genista, Kalmia, etc., etc., grown especially for pot sales. Florists having a stock of any good reliable plants let us know and we will make immediate report on prospects of the disposal of same.

What are the advantages of using

JADOO FIBRE AND JADOO LIQUID?

Here are some that the leading Growers and Florists have found out:

You can use pots two sizes smaller.
You can ship your plants without pots.
Every seed will germinate.
Every cutting will root.
Root action will be stronger.
Flowering will be more profuse.
Foliage will be better in color.
Transplanting required only half as often.
No check after transplanting.

KRAFT'S PLANT TONIC AND PALM WASH.

The Harrisii Disease can be prevented by immersing the bulbs for ten hours in a half solution of 99 per cent. Kraft's Plant Tonic. This has been conclusively proven by experiments at Lincoln Park, Chicago. The Tonic also kills Hard Shelled Scale, Mealy Bug and other insect pests without injury to the plants. This insecticide is non-poisonous.

Eureka Chemical Compound.

Patented Aug. 3, 1897.

For Mildew, Rust, and parasitic fungi in greenhouses and under glass.

Price, 50c. per can.

OIL STOVES for use in this Compound and Tobacco Extracts.

One wick, \$1.50; Double wick, \$2.50; Pans, each, 25c.

DIRECTIONS.—Use only the defender fumigator which burns coal oil and is specially manufactured for using this compound and also for the various tobacco oils, etc. After lighting suspend the fumigator on a wire about level with the benches. As the material soon melts on being heated, put sufficient in the pan to cover the bottom with one-half an inch of the liquified compound. Stir occasionally with a stick. Any person can remain in these fumes without the least inconvenience. The same can be used over and over again by stirring in a little fresh compound. **CAUTION!** "Never allow this compound to ignite" or to boil over. Should it take fire pour water in the pan to extinguish.

OVER

VIRGINIA, MINN., Aug. 5, 1898.

Dear Sirs—I used your Plant Food all last winter, and shall use it this winter when I bring my plants in the house. The way it brings out the blossoms is a perfect marvel to me, and I hope if anyone else has stubborn plants that will not blossom as some of mine were before I read your advertisement, that they will send for a box of the Plant Food before giving up hope.

Very respectfully,

MRS. C. H. MILLER.

ELIZABETHTOWN, ILL., Sept. 8, 1898.

Dear Sirs—I found your Excelsior Plant Food to be all that is claimed for it. I have used one large package and as a result my windows were a mass of bloom in dead of winter when others had scarcely any blooms, and when I need anything of the kind, I shall use "Excelsior."

Very truly yours,

MRS. T. L. OZMENT.

A word from Dr. J. A. Slocum, of Consumption Cure fame

February 21, 1899.

Gentlemen—The preparation that you sent has proved very satisfactory indeed. I have given samples to several of my friends and the results have been all that they expected.

Yours truly,

DR. J. A. SLOCUM.

MAKE FLOWERS FLOURISH

This is

the use of

Walker's Excelsior Plant Food

The Home Made Beautiful

None but those who have had the experience know how difficult it is to not only bring the plants up to a condition of uniform vigor, but to keep them there as well. It is not everyone who can tell just what to do and when to do it, and many who have striven hard for desired results have ended in failure and disappointment. To such, Walker's Excelsior Plant Food comes as a boon. Its use is so simple, the good results so positive, and the price so low that there is no reason why every flower lover should be without a box of this valuable article. It is an odorless preparation, combining in a highly concentrated and soluble form every element required in plants to produce vigorous, healthy growth, and profusion of flowers. On the following pages are a few of the many thousand testimonials we are constantly receiving.

Walker's Excelsior Plant Food

Is an odorless preparation, combining in a highly concentrated and soluble form every element required to produce vigorous and healthy growth. It is beneficial in its effects upon all forms of plant-life. It contains color-forming properties and *will drive insects from the soil*.

Stable dressing is objectionable in appearance, odor weeds and seeds. Walker's Excelsior Plant Food overcomes all these objectionable features, and supplies the soil with requisite food for a uniform and luxuriant growth. It is soluble and therefore quickly absorbed by the roots. It is clean, odorless, not poisonous, therefore perfectly safe effective, giving perceptible results after a few applications.

From Eben E. Rexford, Floral Editor Ladies' Home Journal

Dear Sirs—I consider your fertilizer one of the most reliable and satisfactory ones on the market. It produces a healthy development of the plant—not a forced unnatural growth which is followed by a reaction that often results in the death of the plant or permanent injury of it, as is too often the case with many fertilizers prepared by persons who have no knowledge of manurial chemistry. I can most heartily endorse your Odorless Plant Food, and recommend it to florists and amateurs, who want a helpful and harmless fertilizer.

Very truly yours,

EBEN E. REXFORD

WEBBER'S FALLS, INDIAN TER., June 24, 1898.

Dear Sirs—Enclosed is post-office order for \$1.00, for which please send to my address two large-sized packages of your Fertilizer. I have given it a good trial and am well pleased with it. The last leaf on my rubber tree measured six inches long and two inches wide when I began using the Fertilizer. Now after using it for six weeks, its leaves measure twenty inches long and six and one-half inches wide. All my plants are flourishing on it.

Very respectfully yours,

MRS. D. H. BURK.

CHEBOYGAN, MICH., July 4, 1898.

Gentlemen—I am pleased to say that your Excelsior Brand of Plant Food is all right: plants improve wonderfully with its use.

Very respectfully yours

W. A. MORRIS.

PROVIDENCE, R. I., Nov. 8, 1898.

Dear Sirs—Enclosed find 25 cents for which please send me another box of your soluble Plant Food. I find it a very successful food for window gardening, as my plants were never so full of blossoms as last winter. I have recommended it to all my friends.

Respectfully,

MISS H. D. WILBUR.

BROWNSVILLE, PA., Sept. 14, 1898.

Gentlemen—Have used the Excelsior Brand, and find it satisfactory in every particular, and all you recommended it to be.

Yours respectfully,

L. S. AUBREY

We are now prepared to book your orders for Fall Bulbs, Azaleas and all forcing stock.

Shall be pleased to have you send us a list of your wants on this class stock and we will make you quotations on same.
